

Mockup Review Notes

- Navigation bar can be smaller
 - It looks nice when it is on the left, and that makes the column of the body text work better too
- The header could probably decrease some in size too
- Images are super nice!
 - Have some larger scale images in addition to the small ones you already have
- Body text could be bigger
 - Try making it blue, see how it looks
- Really like to back to top Pokeball idea, just make sure u add some text below it to clarify what it is
- The hamburger will work really well for the mobile version
